

Algorithm 1

Just a sample algorithmn

Algorithm 1: While loop with If/Else condition

Result: Write here the result

Input : Write here the input

Output: Write here the output

```
1 while While condition do  
2   | instructions  
3   if condition then  
4   |   instructions1  
5   |   instructions2  
6   else  
7   |   instructions3  
8   end  
9 end
```
